Integrated storage box

Ideal for storing tips and accessories.

Innovative HEA tip technology:

Long-wearing tip provides the same flow & production as high pressure systems, with a soft, feathered spray pattern.

Lightweight hybrid gun with two-finger trigger

For ergonomic & fatigue-free work.

Direct intake from the paint container

For convenient, non-stop spraying.

Skid or cart configuration

High-Efficiency Airless pump

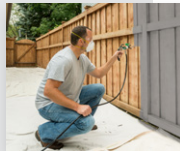

Reduced spraying pressure provides a softer, more controllable spray pattern.

Adjustable pressure control to a maximum of 1600 psi

Spray at half the pressure of a traditional airless unit.

Valve depressor

The valve is released with just the press of a finger, for reliable performance.

HEA | HIGH EFFICIENCY
AIRLESS

Control Pro 250 / 350

Makes it easier to paint like a pro!™
